

	Key knowledge to be transferred to long term memory	Building on previous knowledge and skills		Key knowledge to be transferred to long term memory	Building on previous knowledge and skills	
	Orville and Wilbur Wright made the first successful powered flight in 1903 in America.	In Reception, you learnt that you can fly to other countries by going on an aeroplane.	Great Inventions: Transport Knowledge and Skills		Before the railway was made, travel was mainly horse and carriage.	In Reception, you learnt about different ways to travel. E.g. by car, train, bicycle or bus.
	The Flyer was the first aeroplane to fly with an engine that had a propeller and was controlled by the pilot.				The first steam train was built in 1804 by Richard Trevithick.	In Reception, you explored how wheels on a toy train can move round to travel along the wooden train tracks.
	Its first flight in 1903, and it flew for 12 seconds.				In 1829, a competition called the Rainhill Trials took place.  George Stephenson's train called the Rocket was the only train to finish the race.	In Reception, you learnt about taking part in a race for sports day. You also learnt about ordinal numbers e.g. 1 <sup>st</sup> , 2 <sup>nd</sup> , 3 <sup>rd</sup>
	The Airbus 1380, is the largest passenger plane ever built and can carry 853 passengers.	In Reception, you learnt that you can be a passenger on a coach. You were a passenger on a coach when you visited a farm.			Modern trains can travel much faster than trains from the past and can carry more passengers safely and comfortably.	In Reception, you compared similarities and differences between old and modern toys.
	Modern aeroplanes are used to transport goods all around the world.	In Reception, you learnt how to use the chariot bikes to transport construction materials in the outdoor area.			Famous events and inventors are remembered by commemorative items such as stamps, coins and statues.	In Reception, you learnt that the King's head is shown on stamps and coins.

Key Vocabulary	
propeller	The part of a boat or plane that helps it move.
locomotive	An engine that pulls trains.
flight	A journey through the air.
canal	A man-made waterway that is for ships or boats to pass through.
freight	Items that are transported by truck, train, ship, or aircraft.
commemorative	To remember a great person or event.

## The Big Event

A drama workshop exploring the History of Transport and the life of Amelia Earhart.
